## Appendix M (1)

### REPORT OF THE HEAD OF THE SANITARY DEPARTMENT.

#### DEPARTMENTAL STAFF.

##### I. Senior Officers:—

Mr. G. R. Sayer acted as Head of the Sanitary Department from 1st January to 23rd March, Mr. R. A. D. Forrest from 24th March to 14th November and Mr. W. J. Carrie from 15th November to 31st December.

Mr. E. Himsforth acted as Assistant Head of the Sanitary Department from 1st January to 25th November and from 27th December to 31st December. Mr. K. Keen acted, in addition to his other duties, from 16th July to 29th August and from 26th November to 26th December.

Dr. G. W. Pope, Medical Officer of Health, went on long leave on 27th January and resumed duty on 2nd November, during which period, Dr. J. M. Gray, the Assistant Medical Officer of Health, acted from 27th January to 23rd February, from 12th March to 10th July, from 16th July to 1st November and Dr. T. W. Ware from 24th February to 11th March and from 11th July to 15th July.

Dr. K. C. Yeo served throughout the year as Assistant Medical Officer of Health.

Mr. W. J. E. Mackenzie and Mr. M. J. Reidy served throughout the year as the Colonial Veterinary Surgeon and the Assistant Colonial Veterinary Surgeon respectively.

##### Inspectors:—

###### (i) *Establishment*:—

Five Asiatic Inspectors are now included in the establishment. The number of Inspectors on duty on 1st January, 1st July and 31st December were 52, 53 and 59 respectively (Senior Inspectors included).

###### (ii) *Qualifications*:—

###### (a) *Technical*.

- i. At an examination held locally on 19th April, 1934, eight Inspectors were recommended for the Royal Sanitary Institute Certificate as Sanitary Inspectors. With the exception of four newly joined men, every Inspector now holds this certificate.

- ii. On the same date, one Inspector was recommended for the Royal Sanitary Institute Certificate in Sanitary Science. Including this one, eighteen Inspectors now hold this certificate.
- iii. Six Inspectors hold the Royal Sanitary Institute Certificate and two the Certificate of the Liverpool University School of Hygiene as Inspectors of Meat and other Foods.
- iv. One Inspector holds the Royal Sanitary Institute Certificate of Tropical Hygiene.

(b) *Linguistic.*

With four exceptions, all Inspectors, other than Asiatic Inspectors, possess the 1st certificate in Cantonese colloquial; and with seven exceptions, all hold the 2nd certificate. Nine hold the 3rd and one holds the 4th.

ADMINISTRATION.

2. The administrative machinery was unchanged.
3. Two new Health Districts were established during the year. The number of Health Districts is now as follows:—

Hong Kong (including Peak and Aberdeen) ...	18
Kowloon .....	10

REVENUE AND EXPENDITURE.

4. Table I shows the comparative statement of the Department's expenditure for the years 1933 and 1934.

5. Table II shows under the various heads the revenue collected by the Department during 1934 compared with 1933; and also the revenue paid into the Treasury in respect of contracts.

6. The decision made in 1933 to reduce the monthly payments from \$1,200.00 to \$650.00 in respect of the conservancy contract for Victoria and from \$650.00 to \$325.00 in respect of the conservancy contract for Kowloon was still effective until 15th March, when the Government, instead of receiving monthly sums from the contractor, agreed to subsidize him at the rate of \$1,000.00 a month up to the end of August.

The contractor, however, failed to carry out the contracts, and the work was therefore taken over by the Department as from 16th April.

7. The payment due by the conservancy contractor for Shaukiwan was also reduced. The total deduction for the year amounted to ~~\$~~\$2,080.00, the amount due under the original contract being \$2,580.00 per annum.

8. Due to special circumstances the monthly payments due by the contractor for the collection and removal of blood and hair from the Kennedy Town and Ma Tau Kok Slaughter Houses were reduced from \$1,072.00 and \$466.00 to \$797.00 and \$341.00 respectively, from 1st May to the end of the year.

9. Table III gives the comparative statement of revenue and expenditure for the last ten years.

#### REFUSE COLLECTION AND REFUSE REMOVAL.

10. *Equipment.*—The Department has at its disposal for refuse collection and removal 21 motor lorries (of which 14 are employed in Hong Kong and 7 in Kowloon), 2 towing tugs, 1 steam lighter, 7 deep draft and 7 light draft lighters and 5 sailing junks.

During the greater part of the year, 12 motor lorries only were available in Hong Kong. During November two new lorries were added to the fleet.

*Collection.*—There were collected and delivered to Depots:—

- (i) from City of Victoria, including Hill District and outlying residences ..... 72,330.01 tons  
(all of which was collected by motor lorries, except 921.51 tons at Aberdeen and 3,685 tons at Shaukiwan, which were collected by handcarts).
- (ii) from Kowloon including Kowloon Tong and Kowloon City ..... 38,013.6 tons  
(all of which was collected by motor lorries except 552 tons which were collected by handcarts at Kowloon).

Total.....110,343.61 tons

(or 302.31 tons per day).

In addition some 854 tons of refuse were collected in rural districts (Pokfulam Village, Telegraph Bay, Aplichau and Shek O) and burnt in incinerators.

*Removal.*—156,831½ tons (or 429.7 tons per day) were received at the depots. The difference between this figure and the figure shown as collected is due to a large quantity of refuse taken to the depots by private firms and individuals. For the first six months of the year the Hong Kong refuse was dumped at sea, and the Kowloon refuse at Ma Tau Kok. For the last six months of the year all refuse was taken to Kun Tong Dump.

A new temporary Refuse Depot was opened at Hung Hom in October.

*Cost.*—The cost of refuse collection and removal is shown in Table IV.

#### NIGHTSOIL REMOVAL.

11. The contractors for the removal of nightsoil from Shau-kiwan, Aberdeen, Pokfulam and Aplichau, and Stanley and Taitam respectively, carried out their work satisfactorily.

12. In April the conservancy contractor for Victoria and Kowloon reported he was unable to continue with his contract and the Government decided to carry out the work departmentally. During a transition period the old contractor's staff and gear were used but by the end of the year, the Government had built and equipped its own fleet of junks and engaged the necessary staff. The change over and subsequent working were carried out with little trouble or dislocation of the service.

#### DISINFECTION AT DISINFECTING STATIONS.

13. Table V shows the number of articles and vehicles disinfected during the year 1934. The figures for 1933 are given for comparison. The use of portable "Sack" disinfectors has been continued.

#### DEAD BOXES AND AMBULANCES.

14. Dead Boxes are obtainable at any hour of the day or night at the two Disinfecting Stations and also by day at the Eastern and Western District Sanitary Offices.

15. The Department maintains a reserve of hand ambulances on behalf of the Public Ambulance Service controlled by the Inspector General of Police.

16. Table VI shows calls made during the year.

#### PUBLIC BATH HOUSES.

17. Table VII shows the number of men, women and children who used the Bath Houses during the year 1933 and 1934.

CEMETERIES, MORTUARIES, CREMATORIA.

18. Table VIII (i) shows the number of interments at the various cemeteries during the year 1934.

19. Table VIII (ii) shows the number of general exhumations carried out at the public expense, and Table VIII (iii) shows the number of exhumations carried out by relatives of the deceased.

20. Table VIII (iv) gives particulars of cremations, bodies deposited in the Tung Wah Hospital Mortuary, and removals from the Colony before burial.

UNDERTAKERS.

21. Four undertaker's licences were issued and three cancelled during the year making a total of fifty-five on the register on 31st December, 1934.

ANNEXES.

22. Reports by the Medical Officer of Health, the Colonial Veterinary Surgeon and the Secretary, Sanitary Board, will be found appended.

W. J. CARRIE,  
*Head of the Sanitary Department.*

4th March, 1935.

ANNEXE BY THE MEDICAL OFFICER OF HEALTH.

WORK DONE UNDER THE PUBLIC HEALTH AND BUILDINGS  
ORDINANCE.

Sanitary Nuisances and Contraventions of Sanitary By-laws:—Table IX shows the total number of nuisances reported, the action taken to obtain compliance and amount of fines. Of the total number of nuisances reported in which action was taken almost 69% were abated after receipt of a letter. In 255 cases a legal notice failed to produce compliance. Of the summonses which followed 230 secured convictions, 12 were discharged, 5 withdrawn and 8 abandoned.

2. Table X shows the nuisances in respect of which action has been taken.

3. Table XI (i) shows the Health Districts from which these nuisances were reported and Table XI (ii) gives details of all prosecutions and amount of fines inflicted.

4. *Building Nuisances.*—Table XI (i) line 1 shows by districts the number of nuisances under Part III of the Public Health and Buildings Ordinance reported by the Department to the Building Authority for action. These are additional to those referred to in paragraph 1 above.

5. Although Table XII shows a considerable balance in favour of new domestic premises over domestic premises demolished, there is no evidence of any decrease in overcrowding. This is especially true of the central districts in the City of Victoria.

6. *Miscellaneous improvements.*—Table XI (i) shows miscellaneous improvements effected by District Inspectors in their districts. Table XII shows the number of houses demolished and erected. The great majority of these are tenement houses.

7. *Housing.*—Table XII shows the numbers of tenement houses in the several districts erected in conformity to the requirements of the Public Health and Buildings Ordinance.

8. *House Cleansing.*—The routine work under the by-laws for the Prevention and Mitigation of Epidemic Diseases was carried out during the year. Table XIII shows the number of floors cleansed in the various districts and as compared with the last two years.

9. House cleansing was carried on continuously on five mornings a week throughout the year by the staff. The privilege of permitting certain occupants of premises to carry

out house cleansing at their own convenience was continued and further extended during the year. The terms and conditions under which this concession was granted were, generally, complied with.

Table XIV shows approximately the total number of Chinese houses liable for cleansing.

10. *Limewashing.*—The usual limewashing required by the Domestic Cleanliness and Ventilation By-laws was carried out during the year. Table XV shows the number of floors limewashed. The difference between this total and the total in Table XIV is due partly to exemptions, some floors being new and not requiring limewashing. A certain number has also been carried over into 1935.

Departmental limewashing at the request of owner and where necessary under By-law 4 was carried out throughout the year. No complaints as to the quality of the work done or of injury to property were received.

11. *Prevention of Mosquito Breeding.*—During the year action was taken in 6,639 cases of mosquito nuisance or potential mosquito nuisance.

12. *Licensed Premises.*—524 premises were inspected by officers of the department with a view to the issue of new licences. Routine inspections of two thousand five hundred and sixty-one licensed premises were made throughout the year.

13. *Rat Catching.*—Thirty-one members of the Cleansing Staff were employed during the year setting traps, bird-lime boards and rat poison, also collecting rats from street rat-bins, private premises, etc., and taking them to the Public Mortuary for examination. The total number of rats caught was:—

Hong Kong .....	91,824
Kowloon .....	83,863

Of these none was found to be plague infected.

WORK DONE UNDER THE FOOD AND DRUGS ORDINANCE AND SECTION 82 OF THE PUBLIC HEALTH AND BUILDINGS ORDINANCE.

Samples of fresh milk were submitted for analysis under Section 12 of the Food and Drugs Ordinance, of which 82 were found to pass the standard and 6 to be below standard.

In addition the following samples of Food and Drugs were taken:—

Bean curd 4, Bran 1, Bread 7, Butter 7, Chèese 3, Chewing gum 1, Flour 18, Ghee 17, Lard 2, Oats 1, Peanut oil 3, Purico 1, Skimmed milk 8, Sugar 1, Raspberries 3, Strawberries 2, Tinned sauerkraut 1, Tinned cherries 1, Loganberry 1 and Wheat 3.

Prosecutions were undertaken in 9 cases where the samples failed to satisfy the legal requirements.

Some thirty samples of ice and a similar number of samples of ice cream were taken during the year. The standard of bacteriological purity in some cases left much to be desired.

2. The following foodstuffs were seized and destroyed under Section 82 of the Public Health and Buildings Ordinance:—

Fruit 4,200 tins and bottles, Fish 271 tins and bottles, Vegetables 439 tins and 1 catty (fresh), Meat 49 tins, Flour 195 packages, Jam 241 tins, Jelly 8 slabs, Milk 7,866 tins, Beer 3 bottles, Biscuits 22 tins, Butter 5 tins, Bran 1 carton, Cocoa 1 tin, Chocolate  $\frac{1}{2}$  lb., Cheese 3 tins, Oats 1,426 lbs. and 1 carton and 590 miscellaneous packages of various goods.

G. W. POPE,  
*Medical Officer of Health.*

21st February, 1935.

ANNEXE BY THE COLONIAL VETERINARY SURGEON.

STAFF.

1. During October, Staff was increased by the inclusion of six Food Inspectors whose duties consist of supervision of Markets, Special Food Licensed Premises, Offensive Trades, Food Preserving Establishments and Dairies and the taking of samples of food and milk.

GENERAL STATISTICS.

2. There was no great change in the number of animals slaughtered.

3. The number of animals admitted to Kennedy Town and Ma Tau Kok Slaughter Houses is shown in Table XVI.

4. The revenue derived from Slaughter Houses is shown in Table XVII.

LARD FACTORIES.

5. The following goods were manufactured and exported to the Philippine Islands, United Kingdom and Australia:—

Lard .....	2,753,840 lbs.
Cracklings .....	250,830 ,,
Skins .....	237,152 ,,
Sausages and dried meat .....	51,064 ,,

6. Raw material received into Lard Factories:—

Raw Fat .....	4,135,993 lbs.
Lean Meat .....	72,069 ,,

7. Food exported from Firms other than Lard Factories:—

Tinned food .....	1,300 lbs.
Preserved Meat .....	1,790 ,,

CREMATORIUM.

8. The following were destroyed for which no charges were made:—

14,457 lbs. of diseased meat (condemned carcasses, etc.)  
and 242 animals.

Fuel used in Crematorium for 1934:—

38½ tons of coal.  
389 gallons of kerosene.  
37 gallons of kerosene emulsion.

DISEASE IN DEPOTS.

9.	<u>Cattle.</u>		<u>Swine.</u>
Anthrax	..... 3 cases.	Erysipelas	.....16 cases.
Tuberculosis	..... 8 ,,	Swine Fever	.....30 ,,
Anaplasmosis	..... 2 ,,	Abscesses	..... 6 ,,
Foot and Mouth Disease	.....50 ,,	Injuries	..... 3 ,,
Septicaemia	..... 1 case.		
	<hr/>		<hr/>
	64 cases.		55 cases.
	<hr/>		<hr/>

GRASS.

10. The total amount of Guinea Grass cut on the cultivated hillside at Kennedy Town was 1,017 piculs.

QUARANTINE.

11. The numbers of animals examined and passed through quarantine during the year were as follows:—

Horses	.....	200
Cattle	.....	206
Dogs	.....	173

12. The above does not include animals imported for slaughter or consigned to the Military Authorities.

13. Imported horses and mules unless accompanied by a satisfactory " Mallein Certificate " are detained until they have passed the " Mallein Test ".

14. Other animals are quarantined for varying periods according to their place of origin.

INFECTIOUS DISEASE IN QUARANTINE.

15. Anthrax	.....	3 cases from West River.
Foot and Mouth Disease	.....	7 cases from Indo-China.
Glanders	.....	2 cases.

INFECTIOUS DISEASE IN THE COLONY.

16. Rabies:—

During the year 389 dogs, 6 monkeys and 3 cats were placed under observation on account of being suspected of being rabid. They were disposed of as follows:—

	<i>Dogs.</i>	<i>Monkeys.</i>	<i>Cats.</i>
Returned to owner	..... 256	6	1
Died	..... 29	—	1
Destroyed	..... 95	—	1
Sent to S.P.C.A. Dog's Home	..... 4	—	—
Remaining under observation.	..... 5	—	—

In February a case of Canine Rabies occurred in a village in the Sheungshui area. In spite of energetic measure the disease spread widely and eventually reached Kowloon. There were in all 14 cases, the last case occurring in Kowloon during August.

17. Sixty-four animal brains were examined by the Government Bacteriologist for evidence of Rabies with fourteen positive results.

18. Anthrax:—

Two cases.

Foot and Mouth Disease:—

One outbreak.

The disease was of a very mild type. There were no deaths.

Glanders:—

One outbreak. 7 cases.

#### LIVE STOCK IN THE COLONY.

19. The following numbers of Live Stock were in the Districts under the supervision of Sanitary Inspectors on 31st December, 1934:—

Horses .....	330
Cows .....	2,378
Goats .....	142

In the New Territories:—

Horses .....	200
Cows .....	520
Goats .....	110

20. The above figures do not include animals kept by the Military Authorities or animals for slaughter in Government Depots. No figures are given for work or store cattle as these fluctuate greatly and would be misleading.

21. No figures are given for swine owing to the difficulty of obtaining a record of sufficient accuracy to be of any value.

W. J. E. MACKENZIE,  
*Colonial Veterinary Surgeon.*

18th February, 1935.

ANNEXE BY THE SECRETARY, SANITARY BOARD.

SANITARY BOARD.

1. The following were members of the Sanitary Board during the year:—

President, the Head of the Sanitary Department, Mr. G. R. Sayer from 1st January to 23rd March, Mr. R. A. D. Forrest from 24th March to 14th November and Mr. W. J. Carrie from 15th November to 31st December.

Vice-President, the Director of Public Works, the Honourable Mr. R. M. Henderson.

The Secretary for Chinese Affairs, the Honourable Mr. A. E. Wood from 1st January to 23rd March and the Honourable Mr. N. L. Smith from 24th March to 31st December.

The Medical Officer of Health, Dr. G. W. Pope, L.R.C.P. & S., D.P.H., for whom Dr. J. M. Gray, L.R.C.P. & S., D.P.H., acted from 27th January to 23rd February, from 12th March to 10th July, from 16th July to 1st November and Dr. T. W. Ware, M.B., Ch.B., D.P.H., from 24th February to 11th March and from 11th July to 15th July.

Mr. Wong Kwong Tin.

Mr. M. K. Lo.

Mr. F. C. Hall.

Mr. L. C. F. Bellamy.

Dr. Li Shu Fan.

Dr. R. A. de Castro Basto.

*Note:—*

Mr. C. J. Roe acted as Secretary to the Sanitary Board during the year.

Mr. Ng Mui Kai acted as Assistant Secretary to the Sanitary Board from 1st January to 11th February, when he retired.

Mr. Im Ping-tseung acted as Assistant Secretary to the Sanitary Board from 27th January to 31st December.

LEGISLATION.

2. The following by-laws were made by the Board:—

The By-laws governing Food-preserving establishments were amended by the introduction of a new condition (12) to by-law No. 4 with the object of preventing the business part of the premises being used for sleeping purposes. The amendment was made by the Board on 9th October and approved by the Legislative Council on 8th November.

The By-laws governing Bake-houses were amended by the introduction of a new by-law No. 12 with the object of preventing the business part of the premises being used for sleeping purposes. The amendment was made by the Board on 9th October and approved by the Legislative Council on 8th November.

The By-laws governing Offensive trades were amended by the introduction of a new by-law No. 16 with the object of preventing the business part of the premises being used for sleeping purposes. The amendment was made by the Board on 9th October and approved by the Legislative Council on 8th November.

The By-laws governing Eating-houses were amended by the introduction of a new by-law No. 16 with the object of preventing the business part of the premises being used for sleeping purposes. The amendment was made by the Board on 9th October and approved by the Legislative Council on 8th November.

The By-laws governing Aerated Water Manufactories were amended by the introduction of a new by-law No. 17 with the object of preventing the business part of the premises being used for sleeping purposes. The amendment was made by the Board on 9th October and approved by the Legislative Council on 8th November.

3. *Markets.*—No new market was opened during the year.

4. *Food Control.*—During the year, a Food Inspectorate was organised to give closer supervision to the licensed and registered establishments trading in food-stuffs.

A considerable improvement in the conduct of the businesses has resulted and conditions have been kept closer to the standard desirable for premises in which food is dealt with.

5. *Sale of Fruit Outside Markets.*—In September, a sub-committee was appointed by the Board to consider to what further extent the Board might allow fruit to be sold outside markets. After receiving the report of the sub-committee, the Board decided that fruit could be allowed to be freely sold from suitable premises whether close to a market or not, and that a lenient attitude should be adopted when considering applications for licences.

6. *Public Latrines and Conveniences.*—During the year public conveniences were completed and demolished as follows:—

	<i>Completed.</i>	<i>Demolished.</i>
Hong Kong .....	1	—
Kowloon .....	—	—
	—	—
Total .....	1	—
	<u>          </u>	<u>          </u>

One dry latrine at Woosung Street was converted into flush.

7. *Bath-houses.*—One new bath-house was opened during the year.

8. *Cemeteries.*—

(a) No new cemetery was opened during the year.

(b) No cemetery was closed during the year.

9. *Premises Licensed or Admitted to Registration.*—Table XVIII shows the number of premises licensed or admitted to registration by the Sanitary Board.

10. *Water Closets in Private Premises.*—During the year the Board approved the installation of 1,415 water closets and 130 urinals in private premises. The distribution of these water closets in districts is shown in Table XI (i) (line 6). The number of water closets and urinals installed up to 31st December is shewn in Table XIX.

C. J. ROE,  
*Secretary, Sanitary Board.*

4th March, 1935.

**Table I.**

COMPARATIVE STATEMENT OF EXPENDITURE 1933 AND 1934.
