### GOVERNMENT NOTICE No. 1, 1867.

His Excellency the Administrator of the Government directs the publication, for general information, of the following amended Notice of the Erection of a Lighthouse on the Bluff, at the south side of the entrance of Port Natal, in correction of the notification given in Government Notice No. 122, 1866.

By His Excellency's Command,

D. ERSKINE,  
*Colonial Secretary.*

Colonial Office, Natal, January 4th, 1867.

### NOTICE TO MARINERS.

A Lighthouse has been erected on the Bluff, at the south side of the entrance of Port Natal, at an elevation of 292 feet above high water, a light from which will be exhibited on the 23rd January, 1867.

The Lighthouse is in Latitude 29° 52' 50" S., and Longitude 31° 3' 35" E.

The building is an iron tower, in the form of a frustrum of a cone, 81 feet high, painted white; centre of light being 70 feet above the base, exhibiting a revolving white light of the second class (dioptric), attaining its greatest brilliancy once every minute.

It is visible in all directions from North (round by East and South), to S. 59° W.; and can be seen from a ship's deck 24 miles in clear weather.

The above light is not visible from the Aliwal Shoal, which is 25 miles S., 53° W.; from the Lighthouse: vessels should not, therefore, when coming from the southward and westward, approach the shore nearer than 4 miles, or shoal their water under 40 fathoms, using the lead freely until they make the light well out from the deck, when they may stand in until it bears N. 59° E.,—which bearing will keep them outside all known danger—until they are abreast of the Umlazi River (about 9½ miles below the Lighthouse), when they must keep it more to the northward, as the land trends more to the eastward, giving the shore a good berth of a mile, and when the light bears about W.N.W., they can haul in to the northward for the anchorage: anchoring in 8½ to 10 fathoms, with the Lighthouse bearing S.W. to S.W.½S., distant 1 mile.

W. E. ARCHDEACON,  
*Master R.N., Admiralty Surveyor.*

N.B.—The above bearings are magnetic.
