NOTICE.

Meteorological Signals will be hoisted on the mast in front of the Police Barracks at Tsimshá

A red drum indicates the existence of a typhoon in the China Sea to the East of the C

A red cone pointing upwards indicates, that a typhoon exists in a latitude more N
than the Colony, or, that it is progressing towards North.

A red cone pointing downwards indicates, that a typhoon exists in a latitude more S
than the Colony, or, that it is progressing towards South.

A red ball indicates the existence of a typhoon somewhere to the West of the Colony.

2. The shipping community is supposed to be guided not solely by these signals, but to
The China Coast Meteorological Register issued daily from here.
3. The Meteorological signals do not imply that a typhoon is approaching the Colony.
Storm-warnings are given by firing the gun placed at the foot of the mast. It will
one round, whenever a strong gale of wind is expected here. It will be fired two
whenever the wind is expected to blow with storm or typhoon force, and it will
again, if possible, when the wind is likely to shift round suddenly.—such shifting
frequently accompanied by great disasters to the shipping.
4. In cases where special information is urgently required, enquiries at the Observatory sh
possible, be made between 1 p. and 4 p., as I am particularly engaged at other times.
